Hospital no:
Patient name:
Gender: M / F
DOB:
NHS no:
(Use label if available)

Referring consultant:
Referring hospital:
Address for report:

Contact details:

NHS ☐ **Research** ☐ **Private** ☐

New Patient / Follow-up

Post-Transplant: Auto / Sib / VUD / Cord / Haplo
Donor Male/Female BMT Date: ……/……/……

Organomegaly:
Liver Y/ N
Spleen Y/ N
Lymph nodes Y/ N

Paraprotein: **Y / N**
G / A / M / D / E K / λ
Quantitation: ……g/l

Clinical Details / Suspected Diagnosis
(If diagnosis known, please specify)

(On GCSF: Y / N)
(Recent Chemotherapy? Y / N)

Blood count:
Hb: ……
MCV: ……
WBC: ……
Neuts: ……
Lymphs: ……
Monos: ……
Blasts: ……
Plts: ……

Infection risk? Yes / No
If Yes specify: ……

Sample collected:
Date: ……/……/……
Time: ……

Specimens referred:
Peripheral blood ☐
Bone Marrow Aspirate ☐
Lymph Node ☐
Site:……
CSF / Pleural Fluid / Ascites ☐
Other (specify) …… ☐

Please send all samples to:
Special Haematology
c/o Central Specimen Reception
Blood Sciences Laboratory,
4th Floor, Southwark Wing,
Guys' Hospital,
Great Maze Pond,
London SE1 9RT.

Name: **Signature:** **Tel / Bleep:**
…… …… ……

Received Guys': Date: ……/……/……..
Time: ……..

Indicate required tests:
